

Amendments to the Claims

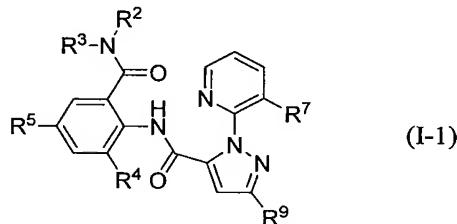

The listing of claims will replace all prior versions, and listings of claims in the application.

1-5. (Cancelled)

6. (Currently amended) A process for preparing ~~pesticides~~ a pesticide composition, comprising contacting ~~a synergistically effective mixture~~ the composition as defined in claim [[1]] 8 with extenders and/or surfactants.

7. (Currently amended) A method for controlling animal pests, comprising ~~allowing a synergistically effective mixture contacting the composition~~ as defined in claim [[1]] 8 with a pest and/or its habitat. ~~to act on animal pests and/or their habitat~~.

8. (New) A composition consisting essentially of a synergistically effective combination of a compound of the formula (I-1):

in which,

R² represents hydrogen or methyl,

R³ represents C₁-C₄-alkyl,

R⁴ represents methyl, trifluoromethyl, trifluoromethoxy, fluorine, chlorine, bromine or iodine,

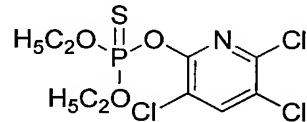

R⁵ represent hydrogen, fluorine, chlorine, bromine, iodine, trifluoromethyl or trifluoromethoxy,

R⁷ represents chlorine or bromine,

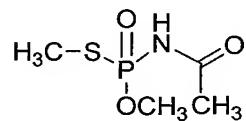

R⁹ represents trifluoromethyl, chlorine, bromine, difluoromethoxy or trifluoroethoxy,

at least one insecticidally active compound of groups 2 and 3 selected from the group consisting of

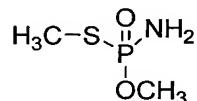

(2-2) chlorpyrifos,

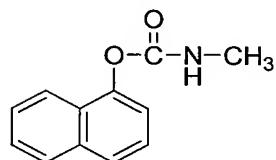

(2-31) acephate,

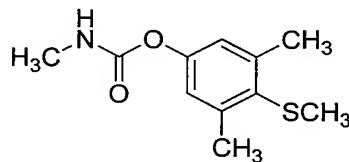

(2-32) methamidophos,

(3-1) carbaryl,

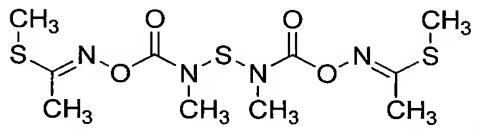

(3-5) methiocarb,

and

(3-10) thiodicarb

and,

optionally one or more extenders and/or surfactants,
wherein the mixing ratio of said compound of the formula (I-1) to said compound
of group 2 and/or group 3 is from 50:1 to 1:50.

9. (New) A composition as claimed in claim 8, wherein the mixing ratio of
said compound of the formula (I-1) to chlorpyrifos, acephate, methamidophos, carbaryl
or methiocarb is from 10:1 to 1:10, and the mixing ratio of said compound of the formula
(I-1) to thiodicarb is from 5:1 to 1:20.

10. (New) A composition as claimed in claim 8, wherein the mixing ratio of
said compound of the formula (I-1) to chlorpyrifos, acephate, methamidophos, carbaryl
or methiocarb is from 5:1 to 1:5, and the mixing ratio of said compound of the formula
(I-1) to thiodicarb is from 1:1 to 1:10.
